

THEJASHWINI M A

Mandya, India | 9110287846 | thejashwinima24@gmail.com | LinkedIn | Github | Portfolio

Professional Summary

Motivated Information Science student skilled in Python, SQL, Power BI, AI, and Machine Learning with experience in data analytics and intelligent systems. Passionate about building AI-powered and data-driven solutions using NLP, RAG, and dashboard visualization.

Work Experience

Data Science Intern - Take It Smart (OPC) Pvt Ltd

- Worked on Python, SQL, AI, and machine learning workflows including data preprocessing, EDA, and predictive analytics on real-world datasets.
- Developed Power BI dashboards and visual reports for KPI tracking, business insights, and data-driven decision-making.
- Explored LangChain and RAG-based applications using vector databases and retrieval techniques for intelligent information extraction and AI-powered solutions.

Projects

OCR Text Recognition and NLP Correction System - Github

- Created an OCR + NLP pipeline using Tesseract and phi3 for accurate text extraction and correction.
- Designed an interactive Flask interface for uploading images, processing text, and downloading results.
- Published research paper in **IJRDET journal** documenting system architecture and implementation.

Multi-Agent AI Assistant using LangChain & Groq API - Live Demo

- Developed a multi-agent AI assistant using Streamlit, LangChain, FAISS, and Groq API for intelligent query handling, document retrieval, and conversational responses.
- Implemented text chunking, vector embeddings, and retrieval-based response generation to improve contextual understanding and information extraction.

Pizza Sales Analytics using Python, SQL & Power BI - Github

- Built an end-to-end Pizza Sales Analytics project using Python, SQL, and Power BI to analyze sales trends, customer behavior, and business KPIs.
- Created interactive Power BI dashboards and performed EDA using Pandas, Matplotlib, and SQL to generate actionable business insights from transactional data.

Technical Skills

Languages: Python, SQL, C

AI & Machine Learning: Machine Learning (Foundational), NLP, OCR, LangChain, FAISS, Scikit-learn

Data Analysis & Visualization: Power BI, Pandas, NumPy, Matplotlib, Seaborn

Databases & Tools: MySQL, GitHub, VS Code, Jupyter Notebook, Netlify, Streamlit

Concepts: EDA, Data Cleaning, Retrieval-Augmented Generation (RAG)

Achievements

- **Research paper presentation – ICOATES 2025** (International Conference) on Post-OCR Systems
- **Best Paper Award – IC AISMART 2025** for integrated OCR–NLP framework.

Certificates

- Python Programming – **Simplilearn**
- AI Tools & ChatGPT Workshop – **be10x**

Education

Maharaja Institute of Technology, Mysore, Karnataka
B.E. in Information Science & Engineering - CGPA: 8.99

2022-2026
